Programs for undergraduate students

@CRAWomen

Experience the joy of research:

Undergraduate research is fun, exposes you to the frontiers of knowledge, and enriches your job and graduate school career options.

- ▶ Join a research team at your college or university by applying for CREU.
- ▶ Spend a summer at another university doing research with a faculty member by applying for DREU.
- ▶ Meet leading researchers and learn about their innovative work by attending a Virtual Undergrad Town Hall Event.

Attend talks: At select universities, learn about the research and career paths of distinguished researchers.

For more information about CREU, DREU, DLS, and other CRA-W programs, see cra-w.org/undergraduate

Programs for graduate students

@CRAWomen

Attend a mentoring workshop:

- ▶ Learn how to navigate and thrive in graduate school at the Grad Cohort.
- ▶ Learn post-PhD survival skills.
- ▶ Participate in a workshop that provides discipline-specific mentoring and technical knowledge in your field.

Attend talks: At select universities, learn about the research and career paths of distinguished researchers.

Join the PhDJobHunters mailing list.

For more information about Grad Cohort, early CMW, DSW, and other CRA-W programs, see cra-w.org/graduate

Programs for government and industry researchers

@CRAWomen

Attend a mentoring workshop:

- ▶ Learn how to thrive during your first three years in a research lab.
- ▶ Learn how to advance your career to the highest possible levels in mid-career.
- ▶ Participate in a workshop that provides discipline-specific mentoring and technical knowledge in your field.

Nominate a female computer scientist to give a distinguished lecture or to win an award.

Apply for a grant to cover conference travel expenses.

Join the ResearchHers mailing list.
